

# MD ABDULLAH

+(91) 9505934716 ◇ Saifi Colony, Falaknuma, Hyderabad.

[ahilabdullah111@gmail.com](mailto:ahilabdullah111@gmail.com) ◇ [linkedIn/Md-Abdullah](https://www.linkedin.com/in/Md-Abdullah) ◇ [github/Md-Abdullah](https://github.com/Md-Abdullah)

## OBJECTIVE

---

I am an emerging Full Stack Developer with expertise in front end development, specializing in React and Next.JS, with a strong foundation and a proven track record in building web applications. As a learning-oriented individual, I quickly grasp coding skills and embrace advanced technologies. Eager to advance within a reputable organization, I seek opportunities to further enhance my expertise, contribute valuable insights, and drive impactful solutions. I specialize in front-end development and am currently exploring backend technologies.

## EDUCATION

---

**Bachelor of Technology (CSE)**, Jawaharlal Nehru Technological University Hyderabad(JNTUH) **2021 - 2024**  
percentage: 74

**Diploma in Computer Engineering** **2018 - 2021**  
percentage: 76

**Central Board of Secondary Education (X)** **2017 - 2018**  
percentage: 64.75

## SKILLS

---

**Technical Skills** C, C++, Java, Python, SQL , MongoDB, HTML5, CSS3, TypeScript, JavaScript, Ant Design, Bootstrap, TailwindCSS, DaisyUI, ShadCN, Expressjs, UI/UX Designing , Git/Github, VS-Code, PromptEngineering, ReactNative, ReactJS, NextJS, Nodejs, Figma, API Integration, Redux toolkit, MaterialUI, SASS, JSON, GSAP, Cursor

**Non-Technical Skills** Goal oriented, Lateral thinking, Team-work, Problem-Solving, Punctual, Knowledge oriented browsing

## EXPERIENCE

---

**Front End Developer** Since AUG - 2024  
Ve.ai *Hyderabad*

- Contributing to the Builder project by developing and maintaining reusable components.
- Managing complex state and ensuring seamless integration of features and functionality.
- Integrating APIs to enhance data flow and user interaction.
- Creating responsive layouts and implementing engaging animations to elevate the user experience.
- Collaborating with cross-functional teams to deliver high-quality frontend solutions.

**Front End Developer** May 2023 - July 2024  
PTR technologies *Hyderabad*

- Led real-world projects at the company, showcasing practical application and management skills.
- Gained technical and professional expertise in a dynamic, learning-focused environment.
- Applied skills to contribute to project development, fostering innovation and impactful solutions.

**Front End Developer Intern** May 2023 - June 2023  
IBM SkillsBuild *Hyderabad*

- Completed front-end development internship from IBM skills-Build platform in Collaboration with EDUNET Foundation. -[Certificate](#)

**Front End Developer Intern**  
PTR Technologies

May 2023 - June 2023  
*Hyderabad*

- Completed an internship in PTR Technologies to gain strong foundational knowledge of development in the software industry.

**MERN stack Course Completion**  
ASDC(Advance Skills Development Center)

June 2023 - dec 2023  
*Hyderabad*

- Successful completion of 6-month full stack Development (MERN) course at ASDC Hyderabad, gained comprehensive insights into both front-end and back-end development including UI/UX Research. - [Certificate](#)

**Salesforce developer Internship**  
SmartInternz

May 2023 - July 2023  
*Hyderabad*

- Completed an internship on salesforce Development from SmartInternz platform and gained basic knowledge of salesforce development. - [Certificate](#)

## PROJECTS

---

### Major Projects

**POS (POINT OF SALE) APPLICATION** . Worked on a real-world Point of Sale (POS) application, where I gained firsthand insights into customer engagement and enhanced my technical skills. This experience provided valuable knowledge about various technologies used in development and their advantages, deepening my understanding of a diverse tech stack. [github link](#)

**HRMS (HUMAN RESOURCE MANAGEMENT SYSTEM)** . I also contributed to a Human Resource Management System (HRMS) application, which monitors, track and manage the employees in an organization efficiently and decrease the burden of management in many ways. I played a major role in designing the UI, structuring and maintaining code, and integrating APIs for front-end functionalities in this project, showcasing my versatility in both design and development aspects.- [github link](#)

**CLOUD NOTE USING MERN** . Developed a note-keeping application using the MERN stack (MongoDB, Express, React, Node.js). Implemented full CRUD functionality allowing users to create, read, update, and delete notes. Designed and integrated a RESTful API with Express and MongoDB for efficient data handling. Built a responsive user interface with React to provide a seamless user experience. - [github link](#)

**NETWORK INTRUSION DETECTION SYSTEM** . Developed a Network Intrusion Detection System (NIDS) using Machine Learning and Deep Learning models with NSL-KDD dataset for anomaly detection. Employed LSTM (a superior RNN variant) and KNN algorithms for binary and multi-class classification of network attacks. Built a ReactJS front end where users input parameters, and the system predicts and informs about the type of attack. Utilized MongoDB for data storage and NodeJS for the backend, incorporating session, cookies, and Google OAuth 2.0 for authentication. - [github link](#)

### Learnings through Mini Projects

- Developed a 3 page blog website which show blogs, projects and contact info - [deployed link](#)
- Developing a responsive home page of talent cogent - [deployment link](#)
- Created Todo-App ,stop watch and Calculator using Javascript.-[deployment link](#)
- Developed “real estate Agency” UI Design on Figma
- created a Coffee Vending Machine using HTML and CSS animations.
- Accomplished some projects on web development like ”Background Generator ”,”Temperature Converter ”,”Portfolio” ,”Netflix home page clone” etc. .
- Created some Landing Pages and Hero sections using HTML, CSS ,Javascript and Reactjs.
